Improvement Initiatives rationale:
<p>Explain why the school, in consultation with the Senior Education Improvement Leader (SEIL), has selected the above Improvement Initiative/s as a focus for this year. Please make reference to the evaluation of school data, the progress against School Strategic Plan (SSP) goals and targets, and the diagnosis of issues requiring particular attention.</p> <p>In 2016 Cranbourne West Primary School built on the progress made in Excellence in Teaching and Learning through the continued school-wide implementation of CAFÉ (Reading), VOICES (Writing) and the introduction of TiLER (numeracy).</p> <p>As this was our second year with the school-wide implementation of our school-wide Literacy Programs and philosophy we were judging the effectiveness of these programs through the actual classroom practice and not NAPLAN. Improvement in NAPLAN will be achieved in 2017 and 2018 when these programs are embedded in classroom practice throughout the school. Performance and development, coaching, classroom observations, School Improvement Team, and direct PCO involvement in the structure of these programs will ensure demonstrable growth within the improvement cycle. In 2016, 80% of our students achieved our target of twelve months growth in reading.</p> <p>The introduction of TiLER our numeracy program in classrooms in 2016 entailed scrutiny and agreement over the introduction of an effective numeracy program. School wide documentation in each of these programs was achieved at the end of 2016 so that all teachers have the tools to fully embed the programs into the school. In 2016, 68% of our students achieved our target of twelve months growth in numeracy. The ability of the PLT Leaders and the Data Manager to assess, track and move students on in their learning was a significant achievement in 2016. This is still a work in progress but the school-wide evidence is now consistent and transparent.</p> <p>Cranbourne West Primary School has after significant consultation, decided to continue with the following initiatives as a result of the school's priority review, the current school culture and a recent review of our school's current Annual Implementation Plan, Improvement Plan and Strategic Plans. Throughout 2017 the school will continue to implement, consolidate and embed the school wide consistent Numeracy and Literacy instructional models. While Writing achieved expected student learning outcome targets in 2016, both Numeracy and Reading did not.</p> <p>In 2017, one PLT Leader will be appointed to each level [Prep. Junior, Middle and Senior] to continue to promote and strengthen the use of data in order to develop strategies which improve effective teacher practice including moderation and collaborative planning which is expected to improve student learning outcomes</p>

### Key improvement strategies (KIS)

List the Key improvement strategies that enable the implementation of each Improvement Initiative. This could include existing strategies already being implemented as well as new ones identified through analysis of data, evaluation of impact of prior efforts, measurement of progress against targets and the diagnosis of issues requiring particular attention. KIS may be specific to one outcome area or applicable across several areas.

Each table below is designed to plan for and monitor each Improvement Initiative. Add or delete tables – one for each Improvement Initiative from Section 1 on the previous page. You can also add or delete rows so that there is alignment and line of sight between the key improvement strategies, actions, success criteria and monitoring. The goals come directly from your School Strategic Plan (SSP) – you will find it helpful to keep them in the same order. Please note that, in the progress status section, ● ● ● respectively indicate: ● not commenced or severely behind schedule, ● slightly behind schedule but remediation strategies are in place to get back on schedule and ● on schedule and/or completed.
