

Dear Parents/Guardians

Students at *Cranbourne West Primary School* are a part of the Mathletics online learning community – joining over 4 million other students around the world.

Mathletics is the world's leading online numeracy resource, helping students to love learning and improve their results through engaging content. It is important to note that Mathletics is an adaptive learning tool which allows teachers to set activities based on your child's needs. This means that it perfectly matches the school curriculum and your child. It consolidates learning from the classroom through the setting of tasks that relate directly to the mathematical goals currently being worked towards for your child along with and automatic response challenges at different levels.

The benefits of *Mathletics* are:

- students are engaged and motivated to learn.
- *Mathletics* is adaptive. It responds to individual student strengths and weaknesses.
- students instantly know if they are on the right track and can work through the curriculum at their own pace.
- animated support guides students through concepts whenever they need, like a maths tutor might do.
- teachers can access student records in order to track progress and identify learning needs.
- *Mathletics* at Cranbourne West Primary School can be used for consolidation, enrichment, customisation of learning and home learning purposes.
- An important benefit is that the *Mathletics* course can be set up by your child's teacher, based on the work that your child has been doing in class.

We have been using Mathletics in our school and the feedback and motivation level of the students have been extremely pleasing! After discussing these, and the effectiveness of Mathletics as a school, we have decided that our students would benefit from the opportunity to continue using it to support their learning on an ongoing basis.

Mathletics is available both at school and as part of each child's home learning. Each student has their individual username and password which has been sent home. Thank you very much for supporting your child in Mathematics. We know our students will benefit greatly from using Mathletics.

- If you have any questions concerning Mathletics, then you are welcome to come to our school to learn more. As mentioned in the Newsletter, there will be a parent session run on Mathletics and Reading Eggs/Reading Eggspress. This will be run on
➤ **Thursday 30th April at 5pm-6pm.**
